

HVS900N

Precise, Stable High-Voltage Power Supply

Main Parameters

- 16 output channels
- 2 output voltage levels (-830V / -950V)
- Output current up to 20 mA / channel
- Output voltage stability $\pm 0,01\%$
- Low TC
- Interlock connector Lemo FFA.00.250.CTAC31
- Output connectors BNO
- Communication connector RJ45
- IP40 / IP20
- Main dimensions: 19" x 3U x 475 mm
- Weight 10 kg

Additional models are available

HVS902N
(2-channel version)

HVS904N
(4-channel version)

ISO 9001

Application: TILECAL hadronic calorimeter of the ATLAS detector
